

Devonport City Council - TAS Devonport Netball Complex - Courts

The **Devonport Netball Complex** is a significant Tasmanian sports facility and home to the Devonport Netball Association. The complex comprises of 10 existing netball courts which are utilised to capacity approximately 3 times a week.

With a funding grant from the Tasmanian Governments' Sport and Recreation Department, the Devonport City Council in partnership with the Devonport Netball Association, undertook to substantially upgrade the facility with the view to improving the worn and tired courts and perimetres and increasing player safety.

The scope of works included repairing, resurfacing and linemarking the existing surface to improving drainage, reduce trip hazards and eliminate water pooling.

Court maintenance costs were getting high so a decision was made to upgrade the whole area and **it was important that the contractor undertaking the surfacing was able to work in with the other contractors to achieve a successful outcome.**

The requirements of the project meant that we needed to work within a tight works schedule and even when the weather put us behind, **Gecko worked long hours and weekends until the project was complete.**

The finished project looks great and has made a vast difference to the Netball Centre playing courts. **The previously uninviting asphalt has been replaced by a bright and attractive surface that the players love.**

On the strength of our proposal, costings and product guarantee, Gecko were appointed to carry out the court surfacing component of the project. **Case studies and verbal recommendations provided further strengthened our submission of being able to provide excellence in service, value for money and timely delivery.**

Approximately 8880 m² of **GeckoPave®** Acrylic Surfacing was used to resurface and give new life to the 10 existing courts. This figure also includes works undertaken to convert 4 unused tennis courts into usable netball areas.

"The product still looks as good as the day it was put down!"
