After

After

***"Domestic Landscaping that is beautiful, durable, pet friendly and reduces your environmental footprint"***

Darren now has plenty of time to enjoy his backyard pool! More and more suburban homes are looking to backyard surface solutions such as synthetic grass. Alternate surface options like paving or river pebbles are generally similar in price but aren't as forgiving or soft underfoot.

*Darren A. from Caulfield says "it's transformed my backyard and all my friends comment on how good it looks. Generally I am not one for mowing or gardening but now I have a backyard that always looks good without the work".*

### Benefits

- Low maintenance
- No need to water
- No mowing
- More time to do the things you enjoy
- Instant results
- Adds value to your home
- Pet friendly
- Environmentally focused
- Provides a great entertaining and play area
- Remains green all year round
- UV protection that can withstand Australia's harsh climate
