

# Lyndale Greens Primary School Greater Dandenong VIC

Issued: June 2014

## Synthetic Grass Areas, Basketball Courts and Running Track

Landscape Area - Before

### Principal, Victoria Golding had this to say;

*"We created a range of spaces to cater for the various needs and interests of our students. The greatest benefit is the fact that children have increased play areas which encourage children to engage in more creative play... it is about catering for students' academically and physically."*

*"I found the company to be very helpful and professional when dealing with our school community. I was very pleased with the professionalism of the 'tradies' and of the consultant who listened to what we wanted to achieve for our school. They were able to offer a range of advice or suggestions which complemented our focus."*

Landscape Area - After

Lyndale Greens is a large multi-cultural primary school located in the City of Greater Dandenong and accommodates almost 600 students.

The school wanted to create versatile outdoor learning and play areas that would inspire creative play and increase physical activity amongst the students. The areas needed to cater for the various student needs, be able to withstand the daily traffic of 600 pairs of little feet and provide an attractive and durable surface that would remain functional all year round.

An internet search placed the school in touch with Gecko Surfacing and our consultant was able to offer a range of quality solutions that would meet their specific needs.

Basketball Courts & Running Track

Gecko was engaged to install a variety of surfaces including synthetic grass area (MSPRO45® Plush), basketball courts and a running track (MSPRO19®), all of which are used extensively by the students throughout the day.

The upgrades at Lyndale Greens Primary school have provided new life to previously tired and worn play areas and will benefit the school and the students and school community well into the future.

*The children absolutely love their environment and our school community is pleased with what we have created for our students.*
