

Shelford Girls Grammar, Caulfield Nth VIC GeckoCushion® Acrylic Surfacing

Shelford Girls Grammar accommodates over 560 students from a diversity of backgrounds. Established in 1898, the school has stood as a leading advocate of education for girls for a period of over 110 years.

The multi-sport courts are used every day of the school term by classes of 20 or more students each session. The traditional asphalt was becoming tired and unattractive so the school searched online for options to improve the aesthetic aspects as well as increase the usability of the courts.

Shelford contacted Gecko Surfacing for an appraisal and after consultation, engaged them to undertake the project confident of their ability to produce the solution that they were after.

Shane Farley, Property Manager had this to say:

*"We were unhappy with the asphalt court and wanted a more appealing surface. **Gecko was easy to work with and nothing was too much of a problem** and our consultant and installation team were fantastic!"*

*The new surface has provided us with **a safer and more attractive court area** and we are very pleased with the outcome.*

*Overall, the **service, delivery and followup** have been excellent and we would recommend Gecko to anyone.... they only have to come and look at the finished product to see – **a job well done!**"*

GeckoCushion® Acrylic Sports Court Surfacing has dramatically improved the look of the Shelford Girls Grammar playing courts. The once drab area now has a new lease on life and the unique surface grip has significantly improved the safety and usability of the area for both students and staff.

The GeckoCushion® System offers an extremely low maintenance surface solution that performs all year round. **GeckoCushion®** is proven to reduce the risk of injury to athletes and therefore enhances player safety. Installed in accordance to Quality Standard ISO 9001, **GeckoCushion®** delivers a high quality surface underpinned by a guarantee unsurpassed by anyone else in the industry.
